

# IrysView<sup>®</sup> v2.5.1 Release Notes

Part Number: 30123

Revision: A

## Release Notes

### IrysView® Release v2.5.1

This document describes the v2.5.1 update for IrysView. In this document we will provide an overview of what is changing with this release so that you may better understand the impact of moving to this version of our visualization software. We hope that you find this new release note format informative and helpful. Should you have any questions please contact [support@bionanogenomics.com](mailto:support@bionanogenomics.com).

### Modifications

There are no changes to the IrysView system in this release. This update incorporates changes and fixes for IrysSolve. Please refer to the IrysSolve 2.1.1 Release Notes for details.
